The IFRA Standards regarding usage restrictions are based on safety assessments by the Panel of Experts on the Research Institute for Fragrance Materials (RIFM) 49th Amendment, and are enforced by the IFRA Scientific Committee. Evaluation of individual fragrance ingredients are made according to the safety standards contained in the relevant section of the IFRA Code of Practice. It is your responsibility to ensure the safety of the final product with more testing if needed.

This is a list of the 26 allergens identified by the European Union that are most likely to cause skin sensitivity. It's not a complete list of the ingredients in this fragrance oil. In the EU, you must include these ingredients on the label if they're present in concentrations exceeding 0.001% in leave-on products like lotion, and 0.01% in rinse-off products like soap. This is not a requirement for products sold in the USA.
