Safety Data Sheet
Sunflower Oil (V000540)

February 17, 2022

Section 1: Chemical Product and Company Identification

Product name: Sunflower Oil
Contact Info: Bramble Berry Inc.
2138 Humboldt Street
Bellingham, WA 98225
info@brambleberry.com
www.brambleberry.com
1-877-627-7883

Emergency Phone Number:
Within USA & Canada: 1.800.424.9300 CCN693143
Outside USA & Canada: +1.703.527.3887 (collect calls accepted)

Section 2: Hazards Identification

Description
Appearance: Clear very light to golden yellow

Physical State: Liquid
Odor: Slight Vegetable oil

Handling
If smoking occurs from oil usage, reduce or remove from heat.

Spontaneous combustion (fire) may result from oil soaked materials such as rags, steel wool, paper and clothing, even if laundered. Place soaked materials in a sealed, metal container to prevent this. If smoking occurs from oil usage, reduce or remove from heat.

This product is NOT classified as hazardous according to CFR 1910, amended to conform to the United Nations’ Globally Harmonized System of Classification and Labeling of Chemicals (OSHA / GHS); SOR/88-66, the Canadian Controlled Products Regulations (CPR); and/or NOM-002-SCT-2003 (Mexico). However, vegetable oil (in mist form) is known to be listed as an OSHA 29 CFR 1910.1000 Air Contaminant. Occupational exposure limits are subsequently provided in section 8 of this SDS.

OSHA Hazards
No known OSHA hazards.
Not a dangerous substance according to GHS.

HMIS Classification
Health: 0
Flammability: 1
Physical Hazard: 0
NFPA Rating Health: 0
Fire: 1
Reactivity: 0

Potential Health Effects
Inhalation: May be harmful if inhaled. May cause respiratory tract irritation.
Skin: May be harmful if absorbed through skin. May cause skin irritation.
Eyes: May cause eye irritation.
Ingestion: Food ingredient. Not a hazardous substance.

Section 3: Composition/Information on Ingredients

Synonyms
Sunflower Oil @100%
CAS#8001-21-6

GRAS status: All ingredients are FDA GRAS.
Hazard status: No ingredient are hazardous according to OSHA criteria.

Section 4: First Aid Measures

Inhalation: Move to fresh air in case of accidental inhalation of vapors or decomposition products.
Skin contact: Wash off with soap and plenty of water.
Eye contact: Flush eyes with water of special eyewash solution.
If swallowed: Ingestion of edible vegetable oil is nontoxic and should pass through the system.

Section 5: Fire-Fighting Measures

Conditions of flammability: Materials may pose fire hazard.
Suitable extinguishing media: Alcohol resistant foam, dry chemical or carbon dioxide. Use extinguishing measures that are appropriate to local circumstances and the surrounding area.

Special protective equipment for firefighters: Wear self-contained breathing apparatus for firefighting if necessary.

Specific hazards arising from the Chemical Oil: Risk of ignition. Rags and other materials containing this product may heat up and spontaneously ignite if exposed to air, even if laundered.

Store wiping rags and similar materials in metal cans with tightly fitting lids. Cool closed containers exposed to fire with water spray. Avoid hot oil; if smoking occurs during application reduce or remove from heat.

NFPA Health 0
Section 6: Accidental Release Measures

**Personal Protection:** Avoid breathing vapors, mist or gas. Recommend exhaust fans over grills and deep frying.

**Environmental Precautions:** Prevent further leakage or spillage. Do not allow product to reach soil, sewage or any water sources. Dispose per local, state, and federal regulations.

**Methods and materials for containment and cleaning up:** Keep in suitable, closed containers for disposal. Dispose of rags used in clean up. Remember oil soaked rags or partially cleaned materials may spontaneously combust.

Section 7: Handling and Storage

**Conditions for safe storage:** Ensure adequate dry, well ventilated storage area between 50 – 120F. Clean up any spillage to avoid accidents immediately.

**Combustible conditions:** Keep away from open flames, hot surfaces and sources of ignition.

Section 8: Exposure Controls/Personal Protection

**Occupational exposure limit values:** Contains no substances with occupational exposure limited values.

**PPE:**

**Respiratory protection:** Respiratory protection not required. For nuisance exposures use type OV/AG or type ABEK respiratory cartridges.

**Hand protection:** Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

**Eye protection:** Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (USA) and EN 166 (EU). Oil in eye must be flushed with water or special first aid eye wash continuously.

**Skin and Body protection:** Impervious clothing. The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace. Deep frying or grill operator must use nonabsorbent apron when dealing with hot oil.

**Hygiene measures:** Good industrial hygiene practices.
Section 9: Physical and Chemical Properties

Form: Clear, liquid  
Color: Light yellow  
pH: NA  
Specific gravity: @0.920 - 0.925 (H2O = 1)  
Melt point/freezing point:  
Smoke point: >410°F  
Flash point: >600°F  
Ignition temperature: >660°F  
Auto-ignition: Not auto flammable  
Lower explosion limit: No data available  
Upper explosion limit: No data available  
Vapor pressure: <.1mm Hg at 300°C  
Boiling point: No data available  
Water solubility: Insoluble  
Partition coefficient: No data available  
Relative vapor: No data available  
Density: No data available.  
Odor/Flavor: Slight bland odor  
Odor threshold: No data available  
Evaporation rate: <1 (butyl acetate = 1.0)

Section 10: Stability and Reactivity

Chemical stability: Stable under recommended storage conditions (<120°F).  

Cooking and frying temperature: >440°F, oil will smoke. Reduce or remove from heat.  
Possibility of hazardous reaction: None known.  
Conditions to avoid: None known.  

Materials to avoid: Strong oxidizing agents.  
Hazardous decomposition products: Formed under fire conditions – nature of decomposition not known.  

Other decomposition products – no data available  
Rags used for clean-up (clean or contaminated) can combust if conditions are adequate, even if laundered. Keep in safe place or dispose of rags after usage in an enclosed metal container.

Section 11: Toxicological Information

Acute toxicity  
Oral: LD50 no data available.  
Inhalation: LC50 no data available.  
Dermal: LD50 no data available.  

Skin corrosion: No data available.
Serious eye damage: No data available.
Respiratory or skin sensitization: No data available.
Carcinogenicity IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by IARC.

Carcinogenicity ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by ACGIH.

Carcinogenicity NTP: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by NTP.

Carcinogenicity OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible, or confirmed carcinogenic by OSHA.

Reproductive toxicity: No data available.
Teratogenicity: No data available.
Specific target organ toxicity: No data available.
Aspiration hazard: No data available.

Potential health effects
Inhalation: May be harmful if inhaled.
Ingestion: The material is a non hazardous food ingredient.
Skin: May be harmful if absorbed through skin.
Eyes: May cause eye irritation.

Signs and symptoms of exposure: No data available.
Synergistic effects: No data available.
Additional information: No data available.

Section 12: Ecological Information

Toxicity: Contains no substances known to be hazardous to the environment. Contains no substances known to be not degradable in waste treatment facilities.

Persistence and degradability: Readily biodegradable.
Bio accumulative potential: Not applicable.
Mobility: Oil is insoluble in water and will float in water.
PBT and vPvB assessment: No data available.
Other adverse effects: No data available.

Section 13: Disposal Conditions

Recycle: Whenever possible, as rules and regulations allow, please recycle or manage materials to minimize waste.
Waste disposal methods: Oil soaked materials may spontaneously combust, even if laundered and should be properly managed to avoid ignition and heat sources or oxygen rich environments. Collect and store soaked materials in closed, metal containers.

Contaminated packaging: Containers should be decontaminated and taken for local recycling, recovery or waste disposal facility. Follow local, state and federal guidelines.

**Section 14: Transport Information**

DOT (US), Canada (TDG), Mexico (MEX) Not regulated; Not dangerous goods.

IMDG Not regulated; Not dangerous goods.

ICAO Not regulated; Not dangerous goods.

IATA Not regulated; Not dangerous goods.

**Section 15: Regulatory Information**

International Inventories: The components of the product are reported in the following inventories:
